

# SUBJECT INDEX

## Volume 34

### Absorption

- impaired, 1
- intestinal
  - fat digestion and, 2603
  - in children, 1540
  - nitrogen balance in children with cholera, 1548

### iron

- from meals contaminated with iron, 2808
- in vitro estimation of, 2248
- methods for determining, 2257
- soy products and, 2622
- jejunal macromolecular, in protein-energy malnutrition, 1281
- lead, phosphate and, 2192
- of shellfish sterols, 507
- xylose, in children, 1540
- zinc, in normal subjects, 2648

Acetate, tocopheryl, bioequivalence of, 1633, 1634

### Acids

- alpha-keto, 173
- amino, 173
  - branched-chain, 173
  - metabolism and clinical implications, international symposium, 2604
  - in childhood hypoproteinemic states, 924
  - incorporation, into complement protein, 2127
  - levels, cysteine needs of intravenously fed newborns, 914
  - of breast milk, 1126
  - plasma, patterns, and food consumption, 377
  - plasma and tissue, relationship between, 1520
  - preloads, satiety and, 2045
  - score, protein quality and, 1164
- arachidonic, in malnutrition, 1534
- ascorbic
  - alcohol and, 2394
  - binding of iron by fiber of wheat and maize, 1384
  - copper metabolism and, 2389
  - daily requirements of, 1347
  - effect on nutritional status of lactating women, 1338
  - half-life of, 1347
  - high-density lipoprotein cholesterol and, 2088
  - in man, urinary oxylate excretion, 305
  - in monkeys, 2397
  - in smokers, 1347
  - mental efficiency and, 1712
  - pool, 593, 594
  - supplements in elderly, 871
  - synthesis, 1448, 1450
  - synthesis by humans, 297
  - transport, in placenta, 1706
  - urinary, in monkeys, 2405
  - vitamin B<sub>12</sub> and, 1356

- bile, taurine effect on, 204
- cholic, kinetics, in child, effects of continuous enteral feeding on, 1139
- dietary fatty, and subcutaneous, 296
- erythorbic, antiscorbic action in guinea pig, 24

### fatty

- blood lipid composition and, 1752
- composition of human colostrum and breast milk, 252
- essential, 1
- deficiency, in malnutrition, 1534
- trans* fatty acid and, 2307
- deficiency, plasma lipids in tropical sprue, 1117
- esterification, in jejunoileal bypass, 2742
- in adipose tissues, 877
- of lipids in maternal diet, 1513
- vitamin E composition of human milk and, 8
- fecal bile, primary and secondary, 2054
- folic, effect on nutritional status of lactating women, 1338

### keto, 173

- metabolism and clinical implications, international symposium, 2604

### linoleic

- absorption, in zinc deficiency, 1982
- fatty acid composition of human colostrum and breast milk, 252
- linoleic, in malnutrition, 1534
- organic, in riboflavin-deficient rat, 2434

### pantothenic

- in elderly, 1736
- in human milk, 2205

### polyunsaturated

- fatty, blood pressure and diet in normotensive adults, 2023
- in malnutrition, 1534
- renal, excretion, dietary protein and calcium metabolism, 2178
- subcutaneous and dietary fatty, 296
- trans* fatty, metabolism, 2307
- trans*-octadecenoic, in Swedish diets, 2517
- urinary 4-pyridoxic, comparison of analytical methods for, 1984

### Adipocytes

- size
  - number and
    - in adults, 1798
    - in boys and girls, 1791
  - obese, normal-weight individuals, 1617

Adipose cell, size, measurement of, 2287

### Adipose tissue

- development, intrauterine growth and, 1785
- fatty acids in, 877

### Adiposity

- in adults, 1798
- relative merits of weight-corrected-for-height indices, 2521

Abstracts submitted to the 21st Annual Meeting of the ASCN were published on pages 615 to 651 of the April issue of AJCN. Authors and subjects are not indexed here.

- Age**  
 body fat in boys and girls, 1791  
 chronological, adipocytes in adults, 1798  
 gestational, intrauterine growth and adipose tissue development, 1785  
 nutritional deficiencies as related to, 1652  
 obese, normal-weight, individual, 1617
- Albumin**  
 ascorbic acid supplements in elderly, 871  
 zinc deficiency and, 1655
- Alcohol**  
 ascorbic acid and, 2394  
 effect on thiamin status, 856  
 riboflavin status during pregnancy, 2699
- Alcoholism**  
 nutrition, 386  
 plasma thiamin pyrophosphate and erythrocyte transketolase in, 1031  
 treatment unit, nutrition, 386
- Aldose reductase, carbohydrate and sorbitol, 1652**
- Alfalfa, effect of dietary fiber on human pancreatic enzymes, 1034**
- Alkaline phosphatase, effect of dietary calcium supplementation on, 2187**
- Alpha-keto acids, 173**
- Amethopterin inhibitors, experimental phenylketonuria in infant rats, 490**
- Amino acids, 166, 173**  
 branched-chain, 173  
 metabolism and clinical implications, international symposium, 2604  
 in childhood hypoproteinemic states, 924  
 incorporation into complement protein, 2127  
 levels, cysteine needs of intravenously fed newborns, 914  
 of breast milk, 1126  
 plasma  
   patterns, and food consumption, 377  
   tissue relationship between and, 1520  
 preloads, satiety and, 2045  
 score, protein quality and, 1164
- Amylase, inhibitor, rate of hydrolysis of cereal starch, 2721**
- Androgens, steroids and obesity, 1804**
- Anemia, 61**  
 in children, 2158  
 iron deficiency, 1600, 2169  
   delayed cutaneous hypersensitivity, 2635  
   hemoglobin criteria concerning obesity, 2748  
 megaloblastic, daily dietary vitamin B<sub>12</sub> requirements, 2423  
 racial differences of hemoglobin concentration, 1694  
 screening in infants, 2154
- Anergy, hospital prognostic index, 2013**
- Announcements, 127, 301, 976, 1642, 1989, 2339, 2612, 2868**
- Anorexia, induced by L-histidine, 119**
- Anorexia nervosa, 599**  
 immunity in, 2756
- Anthropometry, 166**  
 as predictor of mortality, 2592  
 as screening survey, 2594  
 assessment of nutritional status of children, 1925  
 grading of body fat, 2831  
 in Brazilian Indian children, 2229  
 in children, 2770  
 in short children, 281  
 nutritional, mortality risk and, 2591  
 upper arm  
   fat and muscle area standards, 2540  
   nutritional assessment of American adults by, 2530  
   use for nutritional surveillance in mortality control programs, 2596  
   weight-for-height indices to assess nutritional status, 1935
- Antiscorbutic action, of L-ascorbic acid and D-isoascorbic acid in guinea pig, 24**
- Apache children, nutrition studies, 266**
- Apolipoprotein C-III, 191**
- Appetite**  
 depressants, 2763  
 menstrual cycle and food intake, 1811  
 regulation, 154  
 suppressants, 154
- Arachidonic acid, in malnutrition, 1534**
- Arrhythmia, cardiac, 453**
- Ascariasis, malnutrition and, 1976, 1977**
- Ascaris, infection, growth in children, 2327, 2328**
- Ascaris lumbricoides, piperazine therapy for, 2508**
- Ascorbate**  
 high doses, and oxalate excretion in man, 305  
 -mediated immunostimulation, 1906  
 metabolism, pool size, oxydation, fecal, urinary in monkeys, 2397  
 metabolites, urinary, in monkeys, 2405
- Ascorbic acid**  
 alcohol and, 2394  
 antiscorbutic action in guinea pig, 24  
 binding of iron by fiber of wheat and maize, 1384  
 copper metabolism and, 2389  
 daily requirement of, 1347  
 effect on nutritional status of lactating women, 1338  
 half-life of, 1347  
 high density lipoprotein cholesterol and, 2088  
 in man, urinary oxalate excretion after intakes, 305  
 in monkey, 2397  
 in smokers, 1347  
 mental efficiency and, 1712  
 pool, 593, 594  
 supplements in elderly, 871  
 synthesis, 1448, 1450  
   by humans, 297  
 transport, in placenta, 1706  
 urinary, in monkeys, 2405  
 vitamin B<sub>12</sub> and, 1356
- Aspartame, sucrose loading and, 1899**
- Aspirin, and vitamin E depress prostaglandins in injected chickens, 245**
- Atherosclerosis**  
 ascorbic acid and high-density lipoprotein cholesterol, 2088  
 dietary cholesterol and, 1167, 1169
- Autoantibodies, nutritional status of Tanzanian children, 1292**
- Balance studies, unmeasured energy in, 1444**
- Beans**  
 protein  
   digestibility, 1893  
   quality and digestibility, 1893

- Beans—*continued*
  - solubilization of iron from, 1392
- Bengal gram dal, reduction of postprandial plasma glucose by, 2450
- Bichromatic analyzer, thiamin status of Melanesians, 1584
- Bile acid
  - fecal, primary and secondary, 2054
  - taurine effect on, 204
- Bile salts, deconjugated, in protein-energy malnutrition, 1281
- Bioavailability, of nutrient density, 2242
- Biosynthesis, liver cholesterol, 2295
- Biotin, in clinical medicine, 1967
- Birth weight
  - maternal nutrition affecting, 775
  - prenatal nutrition and, 784
- Blindness, night, as tool for xerophthalmia screening, 1985
- Blood, 173
  - chemical analysis, in New Zealand adults, 936
  - constituents, geography, ethnicity, and, 1445
  - glucose, glycemic index of foods, 362
  - levels, availability of vitamin B<sub>6</sub> and pantothenate in diet, 1328
  - lipid
    - composition, fatty acids and, 1752
    - effect of garlic on, 2100
    - selenium, in New Zealand adults, 936
- Blood-brain barrier, folate deficiency and, 1725
- Blood pressure
  - body form and, 527
  - diet and, 527
  - in elderly, 1743
  - in nomadic herdsmen, 527
  - in normotensive adults, 2023
  - urinary electrolyte excretion and, 527
- Body composition, 78, 161
  - during recovery from malnutrition, 892, 900
  - energy expenditure and fat-free mass, 1816
  - in children, 2770
  - somatic, endocrine, and serum lipid changes during detraining, 373
  - stability, 78
  - steroids and obesity, 1804
  - thermogenesis, anorectic drugs, and, 2763
- Body density
  - reliability, 78
  - variability, 78
- Body fat
  - in cancer patients, 2839
  - in undernutrition, 1944
  - total
    - grading from anthropometric data, 2831
    - percentage in boys and girls and, 1791
    - in adults, 1798
- Body pool size, in smokers, 1347
- Body water, in undernutrition, 1944
- Body weight
  - accuracy of self-reported, 1593
  - amino acid preloads and satiety, 2045
  - ascorbic acid supplements in elderly, 871
  - in elderly, 1743
- Bone
  - density, calcium supplementation and, 819
  - histomorphometry, in obesity, 2359
  - marrow, *Nippostrongylus brasiliensis* in, 400
  - mineralization, 462
  - in diabetic rats, 1680
- Book Reviews, 124, 299, 440, 607, 973, 1171, 1456, 1641, 1987, 2607, 2866
- Books Received, 975, 1988
- Bowel
  - functions, transit time and, 2111
  - inflammatory, disease, zinc and, 1447
- Brain
  - cellular development, 498
  - myelination, 498
  - rat, pyridoxine metabolism in, 1321
  - tumors, surgery, irradiation, and metabolic control of, 600
- Bran
  - dietary fiber and intestinal structure, 218
  - effect on iron absorption, 1469
  - Oat, effect of dietary fiber on human pancreatic enzymes, 1034
  - wheat
    - colonic motility and, 2460
    - effect of dietary fiber on human pancreatic enzymes, 1034
- Breakfast
  - fasting, stress, and cognition in children, 1526
  - role in nutrition of children, 1418
- Breast milk
  - cyclic nucleotides in, 343
  - fatty acid composition, 252
- Breath hydrogen excretion, 1451, 1452
- Breath methane, pentose and, 2728
- Bulk, fecal, energy intake, serum cholesterol and, 2078
- Bypass
  - jejunoileal
    - fatty acid esterification in, 2742
    - weight loss and, 1994
- Cachexia, nutritional effects of cancer therapy, 1094
- Caffeine, thermic effect, 2291
- Calcium
  - dietary, supplementation in children, 2187

  - supplementation
    - bone density and, 819
    - in children, 2187
- Calculator, for nutritional intake, 2276
- Calculi, diet and tumors in rat, 483
- Calorimetry
  - direct, energy expenditure and fat-free mass, 1816
  - indirect, thermic effect of caffeine, 2291
- Cancer
  - body fat in, 2839
  - colon, dietary fiber and colorectal diseases, 1145
  - in children, nutritional status of, 2486
  - nutritional support of patients, 1199
  - parenteral nutrition and protein synthesis in, 1484
  - stomach, incidence in Hawaii, 2478
  - therapy, nutritional effects of, 1094
- Carbohydrate
  - complex, response in diabetes, 184
  - dietary
    - glucose, insulin, and, 2716
    - glycemic exchange of foods, 362

Carbohydrate—*continued*

- in muscle glycogen resynthesis after strenuous running, 1831
- exchange, glycemic index of foods, 362
- gelling agents, long-term feeding of, 1837
- metabolism, utilization of modified flour by man, 2438
- sensitivity, insulin and glucose in hyperinsulinemics fed sucrose, 2348
- soluble, of soft drinks, 1432
- sorbitol and, 1652
- Carcinoma, Walker 256/M1, zinc requirement and, 1661
- Cardiac arrhythmia, 453
- Cardiopulmonary disease, nutritional support of patients with, 1235
- Cardiovascular disease, serum zinc and copper, and risk factors associated with, 595, 597
- Caries, dental, sweets, snacks, and 1428
- Carnitine
  - deficiency
    - in hemodialysis, 1496
    - in neuromuscular disease, 2698
  - effect of dialysis on, 1314
  - in neuromuscular disease, 2693
- $\beta$ -Carotene, nutrient-growth correlation among poor children, 539
- Carotenoids, plasma, as indicator of vitamin A status, 434, 435
- Casein, diet, effect on serum cholesterol and lipoproteins in humans, 1261
- Cataract, riboflavin deficiency and, 861
- Catecholamine, excretion in man, 82
- Cecum, dietary fiber and, 1837
- Cell
  - adipose, size, measurement of, 2287
  - fat, size, measurement of, 2287
  - red blood, vitamin E and, 2104
- Cell-mediated immunity, and zinc deficiency, 436, 437
- Cellular immunity, 68, 88
- Cellulose
  - binding of iron, 2322
  - dietary fiber and intestinal structure, 218
  - effect of dietary fiber on human pancreatic enzymes, 1034
- Central nervous system, malformations, 967, 968
- Cereal
  - ready-to-eat, role in breakfast of children, 1418
  - starch, rate of hydrolysis, 2721
- Cerebrospinal fluid folate, blood-brain barrier and folate deficiency, 1725
- Ceruloplasmin, 462
- Chickens, infected, vitamin E and prostaglandins, 245
- Children
  - anthropometry, 281
  - Apache, nutrition studies, 266
  - ascaris infection and growth in, 2327, 2328
  - Bangladeshi, protein-calorie malnutrition, 887
  - body composition and physical activity in, 2770
  - Brazilian, assessment of nutritional status, 1925
  - Brazilian Indian, nutrition of, 2229
  - healthy and malnourished, zinc in hair of, 2323, 2324
  - iron deficiency in, 2158
  - malnutrition in
    - essential fatty acid deficiency, 1534
    - xylose absorption, 1540
  - Navaho, nutrition of, 2210, 2216
  - nutritional deprivation in, 1636
  - nutritional support of, 1223
  - obesity in, 2236
  - poor
    - growth, 539, 555, 562
    - nutrient-growth correlation, 539
  - prepubescent, energy expenditure, 1827
  - preschool, vitamin B<sub>6</sub> status, 2706
  - rapid assessment of nutritional status, 110
  - role of breakfast in nutrient intake of, 1418
  - sugar consumption, 404
  - Tanzanian, nutritional status of, 1292
  - use of family characteristics in nutritional classification of, 2546
- Children *see also* Infants
- Chinese restaurant syndrome, 1899
- p*-Chlorophenylalanine inhibitors, experimental phenylketonuria in infant rats, 490
- Cholate, in protein-energy malnutrition, 1281
- Cholecystokinin, decrease in food intake in man, 154
- Cholera, in children, nitrogen balance, 1548
- Cholesterol
  - absorption, lymphatic absorption of shellfish sterols and their effects on, 507
  - ascorbic acid and, 2389
  - blood, in elderly, 1743
  - daily intake, quantitation, 199
  - dietary, 1103
    - atherosclerosis and, 1167, 1169
    - egg feeding and, 2092
    - fiber and fecal sterols, 2054
    - in elderly, 1743
    - in rhesus monkeys, 830
  - distribution, weight loss and, 1994
  - effects of diet on, 1261, 1758
  - egg feeding and, 2092
  - high diet, 1103
  - high-density lipoprotein
    - ascorbic acid and, 2088
    - relationship of weight loss and cigarette smoking to changes in, 1764
  - in beef, fish, or poultry diets, 2734
  - in Polynesian diets, 1552
  - levels in men, oat-bran and, 824
  - lipoprotein, 1103
    - vegetables and, 1272
  - liver, biosynthesis, 2295
  - metabolism, in rhesus monkeys, 830
  - serum
    - fecal bulk, energy intake, and, 2078
    - garlic and blood lipids, 2100
    - lipoprotein kinetics and, 2560
    - pectin and, 2601, 2602
    - somatic, endocrine, and serum lipid changes during detraining, 373
    - vegetables and, 1272
    - zinc status and serum lipoproteins, 2376
  - soy protein and, 1769
  - total
    - serum, effect of guar gum on blood lipids, 2446
    - vegetables and, 1272
- Cholic acid, kinetics, in child, effect of continuous enteral feeding on, 1139
- Chromatography
  - column, carbohydrates of soft drinks, 1432

- Chromatography—*continued*

- Running, dietary carbohydrates in muscle glycogen re-synthesis after, 1831
- Safflower oil, 1
- Saliva, as index of zinc status in women, 312
- Salmonella typhimurium*, electrolyte metabolism in sepsis, 1362
- Sarcomas, nutritional effects of cancer therapy, 1094
- Satiety  
   cholecystokinin decreases food intake in man, 154  
   dietary fiber in, 211  
   short-term, amino acid preloads and, 2045
- Scanning microscopy, dietary fiber and intestinal, structure, 218
- Selenium  
   balance, depletion, repletion, requirements of young-men, 2662  
   blood, in New Zealand adults, 936  
   stable isotopes of, 2816
- Sepsis, hospital prognostic index, 2013
- Serum  
   iron and zinc status of vegetarians, 1042  
   levels, ascorbic acid and vitamin B<sub>12</sub>, 1356
- Serum carnitine, effect of dialysis on, 1314
- Serum cholesterol  
   effect of guar gum on blood lipids, 2446  
   fecal bulk, energy intake, and, 2078  
   lipoprotein kinetics and, 2560  
   pectin and, 2601, 2602  
   somatic, endocrine, and serum lipid changes during detraining, 373
- Serum ferritin  
   iron deficiency anemia, 1600  
   measurements, 951
- Serum glucose, in diabetes, 184
- Serum iron, during lactation, 1505
- Serum lipids  
   dietary sucrose and, 1453-1455  
   effect of diet on, 1261  
   fructose ingestion on, 1630, 1632  
   in beef, fish, or poultry diets, 2734  
   in malnutrition, 1534
- Serum phospholipid, 1
- Serum protein, fasting in obesity, 2752
- Serum retinol, 41
- Serum transferrin, hospital prognostic index, 2013
- Serum triglycerides  
   effect of guar gum on blood lipids, 2446  
   somatic, endocrine, and serum lipid changes during detraining, 373
- Serum zinc  
   cardiovascular disease and, 595, 597  
   dimineralized water and, 962, 963  
   nutriture of women taking oral contraceptives, 1479
- Sex  
   body fat in boys and girls, 1791  
   differences, energy expenditure in prepubescent children, 1827  
   nutritional deficiencies as related to, 1562
- Shellfish sterols, absorption, 507
- Shortening, West German, *trans* fatty acids in 601, 603
- SIDS *see* Sudden infant death syndrome
- Skinfolds  
   in undernutrition, 1944  
   radiographic fat thicknesses and correlations between, 1986

- Skinfolds—*continued*  
triceps and subscapular, grading of body fatness from anthropometric data, 2831
- Smell  
activity, failure of L-histidine to reduce, 119  
dysfunction, erythrocyte zinc in patients with, 118
- Smoking  
effects on fetal growth, 1410  
habits, husband-wife correspondence, 99  
riboflavin status during pregnancy, 2699  
weight loss and, 1764
- Snacks, dental caries and, 1428
- Socioeconomic effects, differential fatness gain of low income boys and girls, 1465
- Sodium, electrolyte metabolism in salmonella sepsis, 1362
- Soft drinks  
carbohydrates of, 1432  
soluble sugars in, 2151
- Somatotropin, anthropometry in short children, 281
- Sorbitol, plasma, carbohydrate and, 1652
- Sorghum, nitrogen digestibility and, 2454
- Soy, blood pressure and diet in normotensive adults, 2023
- Soy flour, textured and full fat, iron absorption and, 2622
- Soy protein  
cholesterol and, 1769  
diets, effect on serum cholesterol and lipoproteins in humans, 1261  
methionine supplementation of, 605  
isolated, iron absorption and, 2622
- Soya, used during recovery from malnutrition, 892
- Spectrophotometry, flameless atomic absorption, tissue chromium exchange, 2199
- Starch hydrolysis, metabolic response, 1991
- Starvation, 453  
effects, 173
- Steatorrhea, plasma lipids in tropical sprue, 1117
- Steroids  
fecal, effect of pectin on, 2068  
urinary, metabolites, obesity and, 1804
- Sterols, shellfish, absorption, 507
- Stimulation, 807
- Stool, weight, 2111
- Stress, in children, fasting, cognition, and, 1526
- Sucrose  
dietary, serum lipids and, 1453–1455  
insulin and glucose in hyperinsulinemics fed, 2348
- Sudden infant death syndrome, 65  
transketolase activity and, 2326
- Sugar  
consumption, in children, 404  
food sources, 404  
fortification, 41  
soluble, in soft drinks, 2151
- Supplementation trials, interpretation of, 1440, 1441
- Supplements, food, 807
- Surgery  
abdominal, postoperative parenteral nutrition, 1402  
brain tumors, 600  
protein-energy malnutrition in, 166  
Sweets, dental caries and, 1428
- Taste  
acuity, failure of L-histidine to reduce, 119  
dysfunction, erythrocyte zinc in patients with, 118  
perception, zinc depletion and, 848
- Taurine  
effect on bile, 204  
placental transfer and, 2685
- Tension, premenstrual, 2364
- Thermogenesis, anorectic drugs and, 2763
- Thiamin  
deficiency, 65  
effect on jejunal glucose transport in rats, 14  
of Melanesians, 1584  
effect of alcohol on, 856  
pyrophosphate, 856  
in alcoholism, 1031  
status of Melanesians, 1584
- Thiaminase, 65
- Thin-layer chromatography, carbohydrates of soft drinks, 1432
- Third World, diets, Recommended Dietary Allowances and, 2319
- Thyroxine, thyroid hormones and vitamin A, 1489
- Tissue  
adipose  
development, intrauterine growth and, 1785  
fatty acids in, 877  
chromium exchange, 2199  
concentrations, 173  
folates, nitrous oxide and, 2412  
mass, energy expenditure and, 1816  
vitamin E and, 2104
- Tocopheryl  
acetate, bioequivalence of, 1633, 1634
- Tocopherol  
vitamin E  
deficiency and prostacyclin synthesis, 2341  
fatty acid composition of human milk and, 8  
status, 2104
- Toxemia, plasma zinc and, 2367
- Trace elements  
deficiency, 278  
during recovery from malnutrition, 892, 900  
in diets, 1372  
in elderly men, 2641  
serum, and vitamin A in leprosy, 1918
- Trace metals, deficiency, molybdate deficiency with total parenteral nutrition, 2551
- Training, human nutrition research, 957, 981–1030
- Trans fatty acids  
in West German marginines, shortenings, and fats, 601, 603  
metabolism, 2307
- Transferrin  
saturation  
iron deficiency anemia, 1600  
low, income-matched black/white differences after correction for, 1645  
serum, hospital prognostic index, 2013  
zinc deficiency and, 1655
- Transit time  
gastrointestinal, 2111  
wheat bran and colonic motility, 2460
- Transketolase  
activity, 856  
in alcoholism, 1031  
sudden infant death and, 2326  
thiamin status of Melanesians, 1584

- Trans*-octadecenoic acid, in Swedish diets, 2517
- Transsulfuration, during total parenteral nutrition, 1520
- Trauma, nutritional support of patients with, 1213
- Trichouillometry, hair pluckability as nutritional assessment, 2280
- Triglycerides  
  effect of milk on, 351  
  garlic and blood lipids, 2100  
  in beef, fish, or poultry diets, 2734  
  lipoprotein kinetics and, 2560  
  serum  
    effect of guar gum on blood lipids, 2446  
    somatic, endocrine, and serum lipid changes during detraining, 373
- Triiodothyronine, thyroid hormones and vitamin A, 1489
- Tropical sprue, plasma lipids in, 1117
- Tryptophan, relationship with niacin, 423
- Tube feeding, nasogastric, at home, 1131
- Tumors  
  brain, surgery, irradiation, and metabolic control of, 600  
  diet and calculi in rats, 483  
  Walker 256/M1, zinc requirement and, 1661
- Tuna, selenium balance in young men, 2662
- Tyrosine, ingestion, in man catecholamin excretion in, 82
- Ultraviolet radiation, vitamin D, season, occupation, and, 1501
- Undernutrition  
  body fat and skinfolds in, 1944  
  chronic, nutritional assessment of, 2005  
  protein and zinc deficiency and, 2658  
  rapid assessment of nutritional status of children, 110  
  zinc and immunity in, 1912
- Urinary 4-pyridoxic acid, comparison of analytical methods for, 1984
- Urinary zinc, excretion, induced by L-histidine, 119
- Urine, chromium in, pregnancy and, 1676
- Valine, 166
- Variables  
  maternal, affecting fetal growth, 722  
  measurement, data quality control, 804
- Vegans, nutrient intake and health status of, 2464
- Vegetables  
  fiber, effect on metabolic response, 1849  
  serum cholesterol and, 1272
- Vegetarians  
  diet, *trans*-octadecenoic acid in, 2517  
  iron and zinc status of, 1042  
  zinc status of pregnant women, 1049
- Vitamin A, 1611  
  diet, rat bladder stones, and tumors, 483  
  fat-soluble, dietary values, 289  
  fortification of sugar of children, 41  
  in cystic fibrosis, 1439, 1440  
  in leprosy, 1918  
  interaction with zinc, 968, 970  
  nutriture, in cirrhotics, 2264  
  serum changes in malnourished children with xerophthalmia after injection of, 34  
  status, plasma carotenoids as indicator of, 434, 435  
  thyroid hormones and, 1489  
  use among nurses, 1121
- Vitamin B<sub>2</sub>, organic aciduria in riboflavin-deficient rat, 2434
- Vitamin B<sub>6</sub>  
  availability in diet, 1328  
  distribution, pyridoxine metabolism in rat liver and brain, 1321  
  during pregnancy, 1731  
  effect on nutritional status of lactating women, 1338  
  in human plasma, 947  
  nutriture, in preschoolers, 2706
- Vitamin B<sub>12</sub>, 971, 1622  
  ascorbic acid and, 1356  
  binding proteins, in human milk, 1717  
  effect on nutritional status of lactating women, 1338  
  in human milk, 1717  
  minimal daily requirement of, 2423  
  nitrous oxide and tissue folates, 2412
- Vitamin C  
  copper metabolism and, 2389  
  errors in values, 1445  
  fat-soluble, dietary values, 289  
  mental efficiency and, 1712  
  oxalate excretion in man and, 305  
  prophylaxis, for post-transfusion hepatitis, 20, 1978-1981  
  Recommended Dietary Allowances for, 1448, 1450  
  season, occupation, and, 1501  
  supplements in elderly, 871  
  use among nurses, 1121  
  vitamin E needs affected by, 1036
- 25-OH-Vitamin D, 462
- Vitamin E  
  aspirin depress prostaglandins in infected chickens and, 245  
  deficiency, prostacyclin synthesis and, 2341  
  errors in values, 1445  
  fat-soluble, dietary values, 289  
  fatty acid composition of human milk and, 8  
  in nutrition of premature infants, 414  
  in premature infants, 2599, 2600  
  needs affected by vitamin C, 1036  
  prostaglandins in infected chickens and, 245  
  status, 2104  
  use among nurses, 1121  
  vitamin K deficiency and, 1701
- Vitamin K  
  deficiency, vitamin E and, 1701  
  fat-soluble, dietary values, 289
- Vitamin supplements, 462
- Vitamins  
  fat-soluble, dietary values, 289  
  mega, use among nurses, 1121  
  supplement use among nurses, 1121
- Warfarin-induced vitamin K deficiency, 1701
- Water  
  body  
    in undernutrition, 1944  
    total, in cancer, 1997  
  demineralized, serum zinc and, 962, 963  
  -soluble fiber, 1629, 1630
- Weight  
  birth, maternal supplementation and, 2133  
  body

**Weight—continued**

- accuracy of self-reported, 1593
  - amino acid preloads and satiety, 2045
  - in elderly, 1743
  - effect on fetal growth, 1410
